

As a result of the latest flooding incident in Sharnford (2nd January 2024), I have undertaken a little research. My findings are in no way exhaustive, but may be of interest to you going forward.

- **Insurance/Flood Re Scheme**

- The Flood Re Scheme is a government backed initiative, working in conjunction with Insurance Companies to support people, living in at risk properties, to make flood insurance more widely available and affordable.

<https://www.floodre.co.uk/>

- **Forums dedicated to flooding and prevention.**

- The National Flood Forum gives a wealth of information about flooding, prevention, mitigation etc and you can reach out to them for advice.

- ‘Flood Mary’, the most innovative flood champion you have never heard of. She is a one-woman army against flooding and has been at the heart of key developments in moving resilience forward.

- **River Level**

- The River Soar level can be monitored by anyone at the following link:
